

Facts and Figures

Industry Structure

Type of Railroad	Number of Railroads	Miles Operated*	Employees
Local Line Haul	309	21,855	5,102
Regional	31	17,073	7,807
Switching & Terminal	205	7,546	6,779
U.S. Total	545	46,474	19,688

* Includes Trackage Rights

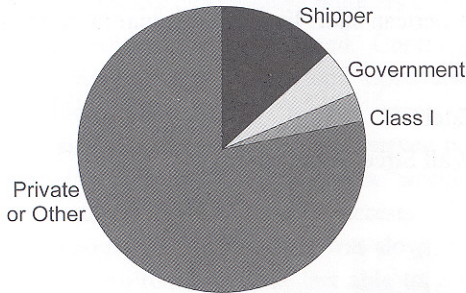

Definitions:

Local Line Haul: Railroad is less than 350 miles and has a revenue less than \$40 million and primarily hauls freight over main or branch line tracks.

Regional: Railroad is at least 350 miles and/or has a revenue between \$40 million and the Class I threshold (\$271.9 million).

Switching & Terminal: Railroad primarily provides switching and/or terminal services within certain switching limits.

Short Line and Regional Railroad Ownership

Type of Ownership	Number of Railroads	% of total short line and regional railroads
Shipper	72	13.2%
Government	29	5.3%
Class I Railroad	18	3.3%
Private or Other	426	78.2%
All Types	545	100.0%

Ownership Definitions:

Shipper: Owners ship at least 50% of the railroad's carloads.

Government: Railroad is a government entity or is majority-owned by a government entity.

Class I Railroad: Owners include one or more Class I Railroads.

Private or Other: Railroad is not owned by one of the entities listed above (e.g. owned by a holding company, a private entrepreneur, or a non-Class I railroad).
